Attachment to Application and Affidavit for Search Warrant

I, Donny T. Simmons, Postal Inspector, being duly sworn, depose and state as follows:

I have been a U.S. Postal Inspector for the past 21 years, enforcing federal mail and drug laws; currently assigned to Columbus, OH. I have received training at U.S. Postal Inspection Service National Training Seminars for mail related criminal investigations and have investigated cases with other federal, state, and local police units.

The U.S. Postal Inspection Service is aware that drug traffickers have been using Express Mail, a business-oriented service offered by the Post Office, to transport controlled substances and transfer funds, cash or otherwise, to further their enterprises. As a result of past investigations and prosecutions, the Postal Inspection Service has determined that a number of indicators can be used to identify packages containing contraband that have been entered into the Express Mail network. Inspectors routinely review shipment documents and Express Mail packages originating from or destined to drug source areas, to identify instances where there is a possibility of drug trafficking.

On February 24, 2012, Postal Inspectors in Columbus, OH, received an electronic mail from Luis Balandran, Postal Inspector in El Paso, Texas. Inspector Balandran stated, while examining outgoing mail in El Paso, Texas; they discovered a parcel going to Marion, Ohio, that they believed contained illegal narcotics. Inspector Balandran was instructed to forward the parcel to Postal Inspectors in Columbus, Ohio.

On February 27, 2012, Postal Inspectors took custody of USPS Delivery Confirmation parcel 03111660000182621471 addressed to Edward Brock, 476 E. Mark, Mario, OH 43302; bearing the return address of Jeremy Brock, 3503 Titanic, El Paso, TX 79930. The parcel is a 11"x 9"x 6" white "Medium Flat Rate" cardboard box, weighing 7.4 pounds; mailed on February 23, 2012, from El Paso, TX 79904, with \$12.10 postage affixed.

A computerized address check revealed 476 E. Mark, Mario, OH 43302 is a legitimate address in Marion, OH 43302; however Edward Brock is not shown as residing there. A computerized address check was conducted for, 3503 Titanic, El Paso, TX 79930, this is a non-existent address in El Paso, TX 79930. Your affiant knows that drug traffickers have, in the past, used unknown names at legitimate addresses when mailing parcels containing illegal narcotics and non-existent addresses for the sender, on packages containing illegal narcotics, to conceal the

identity of the mailer, if the parcel is seized by law enforcement officers. Additionally the El Paso, Texas area is a known source area for shipment of illegal narcotics to Central Ohio as well as other areas of the United States.

On February 29, 2012, Postal Inspectors contacted Sergeant Mark Cartwright, Columbus Police Department, who is the handler for "Bart", a drug detection dog, most recently certified by the Ohio Peace Officers Training Council for the detection of: marijuana, hashish, cocaine, "crack", heroin, and methamphetamine. K-9 "Bart" has had 120 hours of training at Gold Shield Training Kennels, Blacklick, OH, a well-established and regarded training facility for police canines. Both in training and actual deployments, K-9 "Bart" has successfully detected narcotics; demonstrating clear, positive, aggressive alerts, establishing himself as a highly reliable police dog.

The subject parcel was hidden among postal packages at the Main Post Office, 850 Twin Rivers Dr., Columbus, OH 43216. "Bart" was allowed to search the entire area. Officer Cartwright concluded that K-9 "Bart" alerted positively to USPS Delivery Confirmation parcel 03111660000182621471, indicating the presence of narcotics.

Based on the facts set forth in this Affidavit, I believe there is probable cause to believe that controlled substances are being concealed in the parcel, and seek the issuance of a warrant to search the parcel for controlled substances to be seized.
